

School Improvement Plan Overview

Introduction and Purpose

The School Improvement (SI) Plan answers the question, “How are we going to get to where we want to be?” It is different from typical, annual plans that are written to close a gap or achieve a couple goals. The SI Plan is written to achieve the vision of the school and is about keeping the entire system together and moving forward.

The primary purpose of the plan is to identify the strategies, practices, or programs (referred to collectively as “strategies” in this document) based on the root-cause analysis, the system can implement with the highest likelihood of success. Schools should select strategies that are informed by research as having a desired impact in addressing root causes for the intended student population.

Under Every Student Succeeds Act (ESSA), the district or charter—in partnership with stakeholders (including principals and other school leaders, teachers and parents)—must locally develop and implement a school improvement plan for the school to improve student outcomes.

For schools identified under ESSA, the plan must:

- a) Improve student outcomes.
- b) Be informed by all indicators in the accountability system, including student performance in Minnesota’s long-term goals.
- c) Based on a school level comprehensive needs assessment.
- d) Include at least one strategy or evidence-based intervention that:
 - Is aligned to the accountability indicator(s) for which the school was identified
 - Is supported by the strongest level of evidence available
 - Is appropriate to the needs of the schools in the student populations
 - May be selected from a state provided list

- e) Include strategies to increase access to experienced, qualified and effective teachers for underserved students at the school and classroom levels.
- f) Identifies resource inequities, which may include a review of district and school level budgeting, to be addressed through implementation of this plan.
- g) Be resourced appropriately.
- h) Describe how early stakeholder input was solicited and used plan development, and how stakeholders will participate in plan implementation.
- i) Be approved by the school, the district or charter, and the state (comprehensive support and improvement schools only).
- j) Are made publicly available, such as on a school or district website, with required materials under World's Best Workforce.
- k) Upon approval and implementation, is monitored and periodically reviewed by the state.

A school improvement (SI) plan is required for *each school* identified for support and improvement.

- **Schools identified for *Comprehensive Support and Improvement* are required to submit a SI Plan to the Minnesota Department of Education (MDE)** [submit PDF to schoolsupport@state.mn.us] **no later than March 1, 2019**. Your Regional Center of Excellence team member should be copied on this submission. This plan should already have been reviewed and approved by the district or charter prior to submitting to the state. Note: if the district or charter has a school improvement plan template they would prefer to use, they may do so provided the local template meets all of the state plan requirements as determined by a Regional Center Director or the Director of School Support at MDE.
- **Schools identified for *Targeted Support and Improvement (TSI)* are not required to submit a CNA Summary Report to MDE**. The district or charter has the sole oversight role for school improvement activities under Minnesota's ESSA plan. The state may conduct periodic audits of district and charter TSI activities including the SI Plan. Use of this SI Plan is encouraged but not required.

Outcome

The SI Plan identifies what will be done, how it will be done, when it will be done, why it will be done, and who will do it is at the heart of an action plan. Aligned with the existing strengths and resources within a district/school, and their readiness, the action plan will have a high likelihood of success.

Preparation and Materials

In advance, a full review of the process, protocols, and supporting documents is important. This includes:

- "School Improvement Plan Template"

- “Hexagon Tool”
- Determining a stakeholder communication/engagement plan

Who Should Be Involved

- A school level school improvement team should be established that includes voices of educators, staff and community. District or charter staff should be represented on this team or have clear communication links established between the school and its district or charter. The school improvement team is accountable for making the school improvement work happen, including the development and implementation of the SI plan.
-

Time

To do this process with fidelity

- Preparing: includes the time to review all documentation, and identification of stakeholders outside of the system to engage in the process. 1-2 hours
- Strategy, practice, program research: includes the time to research all possible options that can be used to remove the identified/hypothesized root-cause(s) and support the vision of the system. Depending on the time of year and availability of leadership/staff, the research should take from one to two weeks.
- Strategy, practice, program selection: Using the hexagon tool, find which option(s) the system is most ready to implement. 2-8 hours.
- Creating the SI Plan: 4-8 hours.
- It is important to note that there may be time needed (possibly multiple days) between steps to allow for any work or research needed to inform the next step.

Directions Overview

Preparing

- Review all documents associated with the SI Plan and strategy selection. Determine how to communicate with and engage all stakeholders, within and outside of the school system.

Strategy, practice, program research

- Research all possible options that can be used to remove the identified/hypothesized root-cause(s) and support the vision of the system.
- Where possible, compare research of similar school systems with similar demographics and student groups.

Strategy, practice, program selection

- Using the Hexagon tool from NIRN (see citation below), select the strategy, practice, or program that is identified as being the best fit for the system.

Creating the SI Plan

- Ideally, the plan will be written to meet goals over a two to three year cycle, with the plan being updated or modified annually.
- The SI Plan consists of the baseline data, goals, objectives, selected strategy, activities to implement, person(s) responsible for each activity, how the success of each activity will be measured, what resources are needed, due dates, and when activities will take place on the timeline.
 - In the “Plan for Strategy” sections, be sure to consider and include all actions that will be associated with successful implementation of the strategy. To add rows in this section, place the cursor on the right side of the bottom row and click the “return” or “enter” button on your keyboard.
- The plan must include the activities for implementing and monitoring fidelity of the strategy.
- The plan must include stakeholder communication and engagement strategies and plans.

Leading the Conversation

- Using the SI Plan Template, leadership will ensure that all parts are completed, including all items under the “Plan for Strategy” section.
- Facilitating the process can be done in many ways. It is important to use protocols that allow for all stakeholder voices to be shared when determining all actions to implement a strategy.

Modifications or Variations

Describe options for use:

- Ideally, the plan will be written to meet goals over a two to three year cycle, with the plan being updated or modified annually. However, it may be written for an initial one year cycle if:

- o There was not enough data to complete a root-cause process. In this case, a strategy may be used based on the best hypothesis and additional data collected to revisit the root-cause process.
- o Due to other factors within the system, a one year goal is in the best interests of the system.
- Delegating strategy research to multiple people can save time on the research step of the process.
- A system may select only one strategy to implement, but may select up to three. It is recommended that a system not try to implement more than three strategies in a given year.

School Improvement (SI) Plan

The purpose of the school improvement (SI) plan is to lay out the vision, including strategies and actions, person(s) responsible, measurement, costs/funding sources, timelines, and anything that must be considered. The SI Plan will move the system forward to the vision. The SI Plan is work done in the INSTALLATION stage. Using what is learned through the EXPLORATION stage, the leadership team can acquire or repurpose needed resources for implementation.

Contact Information

District or Charter Information	District Phone, Fax, Email
District/Charter Name and Number Roseville Area Schools (623)	Supt/Director Phone: 651.635.1600
Superintendent/Director Aldo Sicoli	Supt/Director Email: Aldo.Sicoli@isd623.org
District Address: 1251 County Road B2 West, Roseville, MN 55113	District/Charter Fax: Enter fax number here

Who is the main contact at the district or charter level for the ESSA school support and improvement work?

Name of Main Contact: Dr. Jenny Loeck	Role in District/Charter: Director of Secondary Education
Phone Number: 651.635.1600	E-mail Address: Jenny.loeck@isd623.org

School Information	School Phone, Fax, Email
School Name, Number and Grade Span: Fairview Alternative HS (grades 10-12)	Phone: 651.604.3800
School Address: 1910 County Road B West	Fax: 651.604.3801
Principal: Laura Freer	Email: Laura.Freer@isd623.org

Who is the main contact at the school for the ESSA school support and improvement work?

Name of Main Contact: Laura Freer	Role in School: Principal
Phone Number: 651.604.3800	E-mail Address: Laura.Freer@isd623.org

Stakeholder Engagement and Communications Plan

Describe your stakeholder engagement activities and how you will communicate with stakeholders.

The district will post the plan on the district website to notify the families of the school improvement plan. At FAHS, we host conferences every six weeks with high percentage of families participating. During these conferences, we share information about the individual student as well as listening to feedback and ideas from the families for improvement. Language interpreters and cultural liaisons are available to assist families as needed. A school newsletter will be emailed to families every trimester to keep them updated as to school progress as well. An intake meeting is scheduled for every new family before a student enrolls in the school. During the intake we share information about our school, ask families questions about their feedback of student needs, and answer any questions from the family. The intake is our first contact with families and want to become a partnership to support their student's educational journey.

Use the following table to outline a communications plan for the ESSA support and improvement work.

When will the communication take place	What is the message	Who is the audience	How will it be communicated
March 2019	Notification of the SIP	FAHS Staff	Information will be shared with staff during a team meeting
March 2019	Notification of the SIP	Superintendent and District Leaders	Information will be shared at their weekly meeting
July 2019	Notification of the SIP	Families	Website
School Year 2019-2020	Progress Monitoring of SIP	Families	Newsletter/Conferences

School Improvement Strategy(ies)--Summary

Identify the strategies, practices, or programs team has selected for implementation. This will be the focus of the school improvement effort the identification cycle (three years). It is strongly recommended that schools focus their school improvement effort and seek deep, consistent implementation of one or two strategies.

Strategy #1	Click here X if the strategy is an Evidence-Based Practice (EBP)
The Strategy we are going to implement is...	FAHS teachers will identify, create and implement a standards-based model of student instruction. Teachers will use WICOR and Culturally Relevant teaching strategies in their courses.
...to address this Root-Cause(s)	Students are not recovering credits at a pace that will allow them to graduate within 4 years.
Which will help us meet this student outcome Goal*	Fairview Alternative High School will increase 4 year graduation rates from 44.7-% to 67% by June 2021

#2	Click here X if the strategy is an Evidence-Based Practice (EBP)
The Strategy we are going to implement is	Increase communication regarding interventions used at Roseville Area High School with the Fairview Alternative High School staff for students who are at-risk of not graduating within 4 years.
to address the Root Cause	Students are not being identified as at-risk of not graduating within 4 years effectively.
Which will help us meet this student outcome Goal*	Fairview Alternative High School will increase 4 year graduation rates from 44.7% to 67% by June 2021

*SMART (strategic, measurable, ambitious, rigorous and time-sensitive) goal template example: The three year average for ACCOUNTABILITY INDICATOR at SCHOOL NAME will increase from BASELINE DATA to TARGET DATA within THIS TIME PERIOD

Plan for Strategy #1

Strategy #1: FAHS teachers will identify, create and implement a standards-based model of student instruction. Teachers will use WICOR and Culturally Relevant teaching strategies in their courses.

Root-Cause: Students are not recovering credits at a pace that will allow them to graduate within 4 years.

Goal: Fairview Alternative High School will increase 4 year graduation rates from 47.7-% to 67% by June 2021

(Use the following table to identify actions that need to take place in order to implement this strategy. The months are intended to display a timeline for when each action step needs to begin and culminate in order to move the work forward. Use as many rows as needed)

Action Steps	Person(s) Responsible	Measurement	Resources Needed	Start Date	Due Date
Develop Power Standards for each content area and assign them to the courses required for graduation.	FAHS Teachers & Administration	Power standards are linked to the courses being taught	Time Curriculum materials Support from District Curriculum Specialists	September 2019	June 2020
Develop curriculum that students can see themselves and others (hidden curriculums become visible) that are aligned to power standards.	PLCs	Student survey Parent Survey Staff Survey	Time Curriculum materials	September 2019	June 2020
Review the summative assignments from mainstream high school for students to show	FAHS Teachers & Administration	Course completions Stakeholder surveys	Curriculum materials Time	September 2020	June 2021

knowledge prior to the taking the course.	EDC Curriculum Specialists

Progress Toward Goal #1: *(To be completed at end of year, and document resubmitted to the Regional Center of Excellence Director and MDE.)*

- To what extent has the Strategy been implemented? What about the process went well, or not? What is the adult fidelity evidence of this?
 - [Click here to enter text.](#)
- How has student achievement been impacted? What is the evidence?
 - [Click or tap here to enter text.](#)
- How will implementation be adjusted and/or supported moving into the next year?
 - [Click or tap here to enter text.](#)

Plan for Strategy #2

Strategy #2: Increase communication regarding interventions used at Roseville Area High School with the Fairview Alternative High School staff.

Root-Cause: Students are not being identified as at-risk of not graduating within 4 years effectively.

Goal: Fairview Alternative High School will increase 4 year graduation rates from 44.7% to 67% by June 2021

(Use the following table to identify actions that need to take place in order to implement this strategy. The months are intended to display a timeline for when each action step needs to begin and culminate in order to move the work forward. Use as many rows as needed)

Action Steps	Person(s) Responsible	Measurement	Resources Needed	Start Date	Due Date
Develop a method of using more data-driven list of students to discuss and check in with students.	FAHS Student Support Services Department FAHS Admin	Data collection and Progress monitoring meeting notes	Time	September 2019	June 2021
Create a more formalized tracking of interventions used for students.	FAHS Licensed Staff members FAHS Admin RAHS Counselors and Administrators	Data collection and Progress monitoring during AB meetings. Progress monitoring at RAHS	Time	August 2019	June 2021
RAHS counselors and administrators will continue to track students based on data for being at risk of not graduating on time	RAHS Counselors and Administrators	Data collection and Progress monitoring	Time	August 2019	June 2021

Revise the FAHS referral form to include detailed interventions used and teacher feedback.	FAHS & RAHS Administration FAHS & RAHS Counselors RAHS Teachers	Referral data and information shared	Time	May 2019	June 2021
--	---	--------------------------------------	------	----------	-----------

Progress Toward Goal #2: *(To be completed at end of year, and document resubmitted to the Regional Center of Excellence Director and MDE.)*
